

**Mental Health
Association
in New Jersey**

Government Affairs Department

The Mental Health Association in New Jersey strives to be the premier organization advocating for children, adults to achieve mental health through education, training and services.

As part of its Government Affairs Department, MHANJ manages an extensive network of consumers, providers, family members and concerned citizens who form a collective voice in developing initiatives and public policies to create an integrated, comprehensive and accessible system of care for children and adults with mental health treatment needs.

Become a member of this active and growing network to keep up with policy and legislation on national and state levels, to influence legislators and elected officials, and to reform the mental health system once and for all.

We need your help! We need your vote! We need you!
